## STUDIO17

---

Our brand new pop up studio is now live. Complete with sound, video, online capabilities, playback and multi-use stage this is an easily accessible solution only 15 minutes from the City! With the ability to live stream or pre-record motivational talks, interviews, workshops, live music sessions, keynote speakers and leisure classes.

We have a team of technicians and support staff on hand ready to achieve your vision. There is also an added bonus, just one floor below the studio is London's largest collection of bespoke decor and furniture meaning we can dress your set in any way you wish, ensuring the days of bland Zoom backdrops are well and truly gone.

## WHAT CLIENTS SAY

“It was great fun, thank you so much for arranging this for us. I’ve had some great feedback from the participants! Everyone really enjoyed it.”
