Virtual Conferences

VIRTUAL CONFERENCES

We understand that it is not currently possible to host events like once before, however, the Vibration Design and Production team are here to deliver you events and experiences just as exciting as ever! Through virtual and hybrid events, our teams can transform your once in-person conference into an online extravaganza!

What we can provide:

- Virtual conference across multiple days
- Unlimited speakers from worldwide locations
- A variety of virtual stages
- Virtual exhibition area with live demos
- Live Studio Venues
- Interactive Entertainment
- Workshops
- Comedians & Influential Speakers
- Food & Drink Options

MCR (Master Control Room)

State of the art control room hub for creating the perfect virtual/live streamed event. With a virtual green room for presenters to be checked before moving to the live stage.

Virtual Stages

Multiple simultaneously live virtual stages with the ability to host single presentations, panels sessions and Q&A sessions and panel discussions.

Exhibition Area

Virtual exhibition area with the ability to show pre-recorded or live demos seamlessly in an engaging space and host networking areas, including two way meetings.

Crew

A dedicated production manager and specialist technicians to oversee the project from start to finish. Making sure everything from pre-production to the live event runs smoothly.

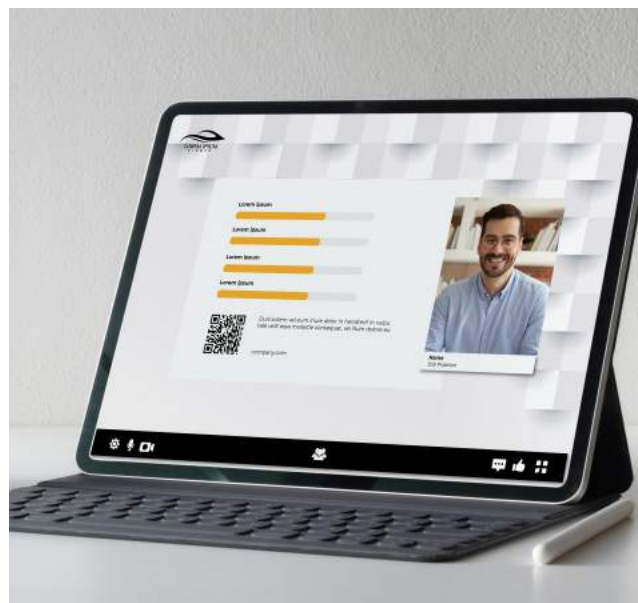

VIRTUAL CONFERENCE TECHNICAL FEATURES

MCR (MASTER CONTROL ROOM)

The master control room is used to broadcast pre-recorded or live web streams and create live shows with remote presenters. We create a central hub for all virtual setups including stages and exhibition areas to create the perfect virtual event.

VIRTUAL STAGES

Each virtual stage can be custom designed to your requirements to create an environment with a slick feel that will keep attendees engaged throughout the conference.

Each stage comprises of the following:

- Comms
- Main and Back TX Records
- Monitors
- Dedicated Crew managing area

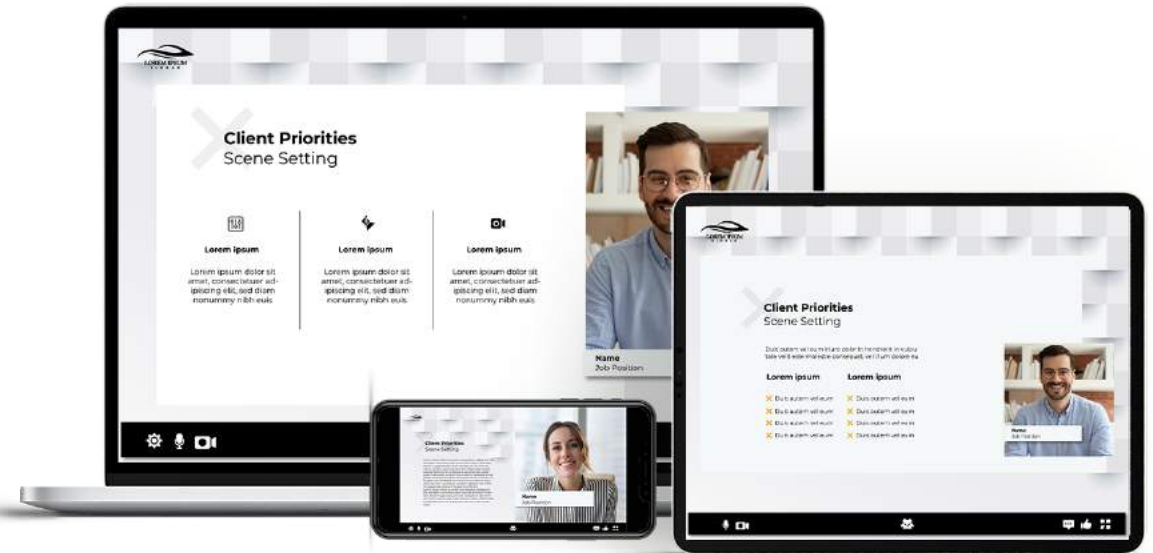

The exhibition area has a similar setup to the virtual stages with the ability to live stream presentations and live demos from the exhibitors as well as pre-recorded demos.

This virtual setup can help reach new audiences via digital booths with live or pre-recorded presentations and demos. There is also the ability to schedule online talks, interviews, movies, collaborations, product launches and more.

The exhibition area comprises of the following:

- Comms
- Main and Back TX Records
- Monitors
- Dedicated Crew managing area

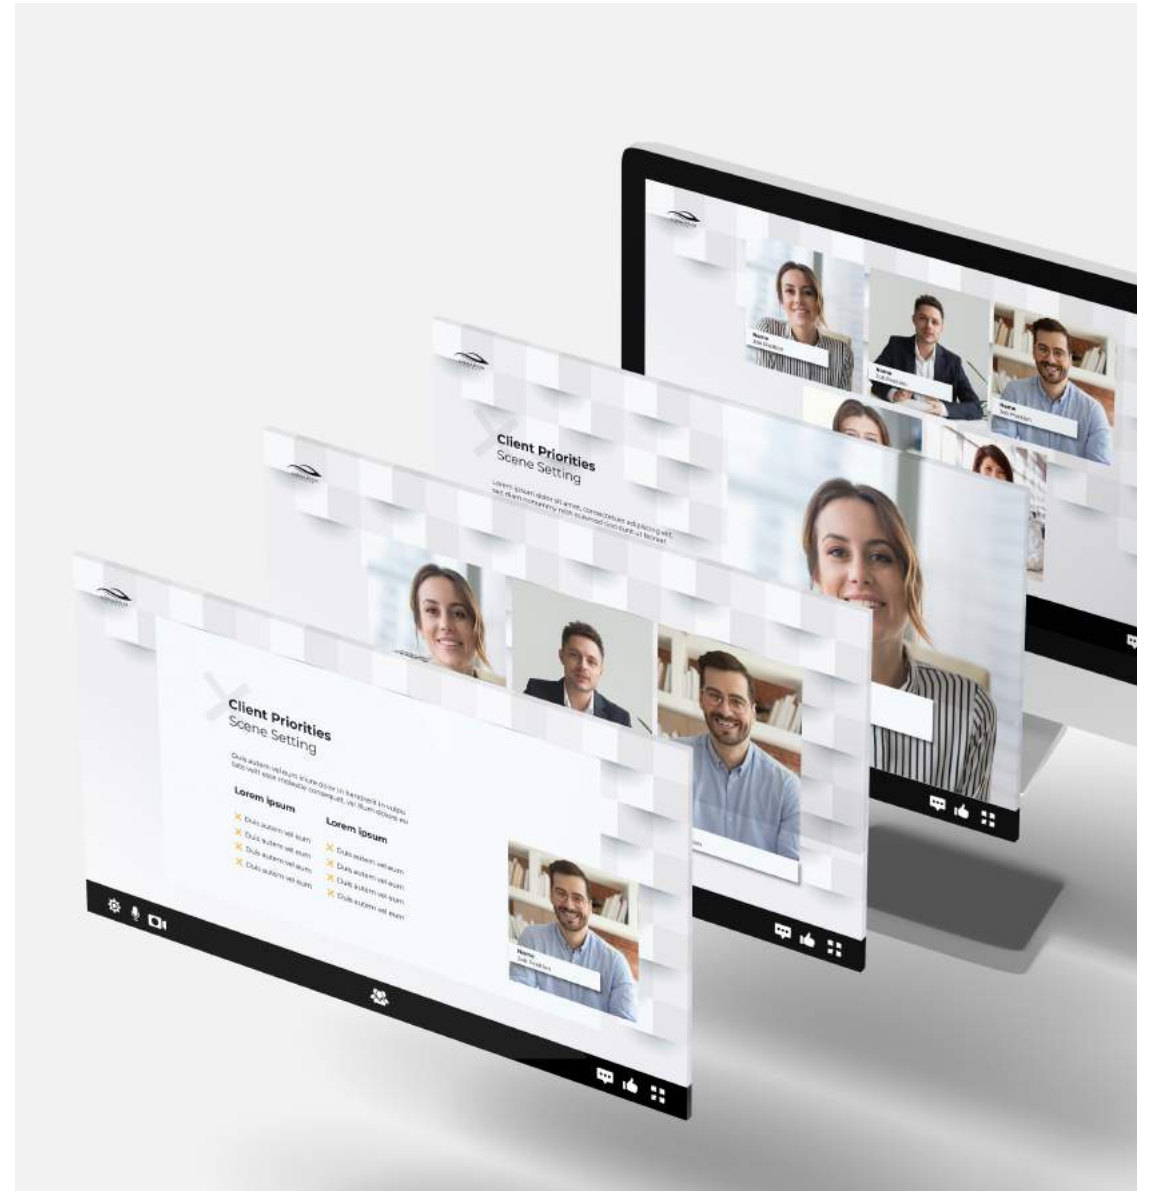

EXHIBITION AREA WITH LIVE DEMOS

PRESENTATION LAYOUT IDEAS

Here are some presentation layout options to show what is possible:

- Presentation with Single Presenter
- Presentation with 2 Presenters
- Presentation with 3 Presenters
- 5way Panel and Q&A Sessions
- Presenter Holding Slides / Next Presenters
- Option for Slido - Live Questions

STUDIO VENUES

We know the perfect studio spaces to present to your audience and deliver engaging digital events while keeping everyone safe. We have various locations to meet a range of budgets and they are all 'Good to Go' Covid safe certified and have the perfect filming conditions.

LANDING FORTY TWO

Present to your audience from the heart of the financial district with the City of London's iconic skyline as a backdrop.

Whether it be a virtual conference, product launch or meeting, Landing Forty Two is the ideal studio space to deliver engaging digital events while keeping everyone safe. Offering a unique viewpoint 150 metres above the city streets through floor-to-ceiling windows, this blank canvas studio is spacious but intimate, with an abundance of natural daylight creating the perfect filming condition.

STUDIO17

Complete with sound, video, online capabilities, playback and multi-use stage this is an easily accessible solution only 15 minutes from the City! With the ability to live stream or pre-record motivational talks, interviews, workshops, live music sessions, keynote speakers and leisure classes, Studio17 sits a stone's throw from Blackhorse Road tube station.

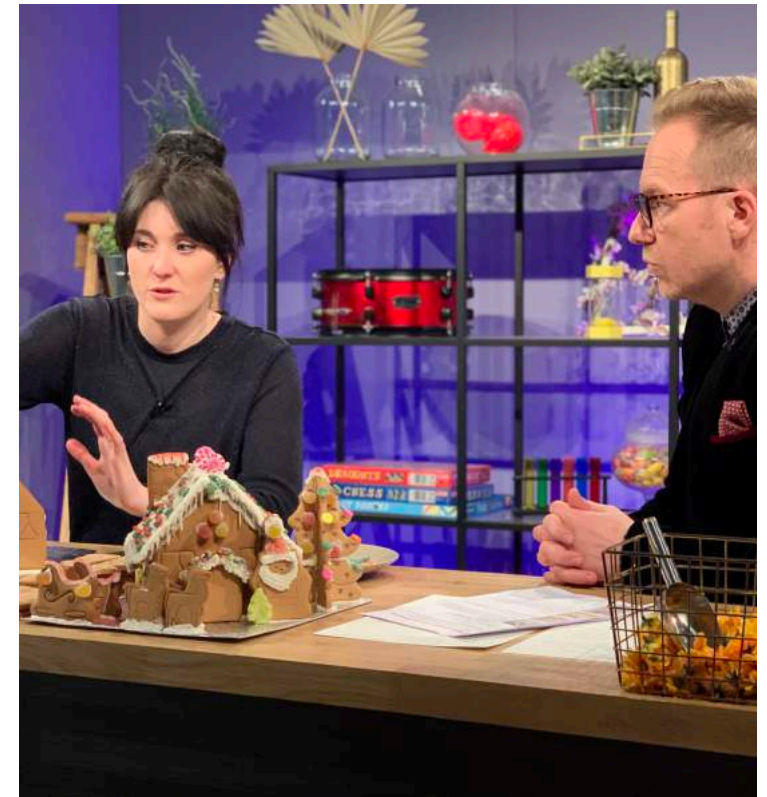

Stand out entertainment breaking through the screen into your home office. From DJs and bands to some of the most jaw-dropping magicians you will ever experience, we have the knowledge and expertise to keep your guests captivated.

INTERACTIVE ENTERTAINMENT

WORKSHOPS

Engaging and stand out virtual workshops help guests interact with each other to complete challenges or tasks or perhaps produce something to be enjoyed forever. From terrarium curation to cocktail masterclasses to escape rooms there is something for everyone.

To add some star quality to your virtual event we can supply a comedian to suit any price range carefully selecting them to match your individual requirements. For something more informative we have a range of inspirational speakers across the globe to deliver a motivational message on brand and on budget.

COMEDIANS & INSPIRATIONAL SPEAKERS

FOOD & DRINK OPTIONS

Guest can become their own chefs or simply open and enjoy with our creative food offerings.

VIBRATION DESIGN AND PRODUCTION
