Virtual Brand &
Product Launches

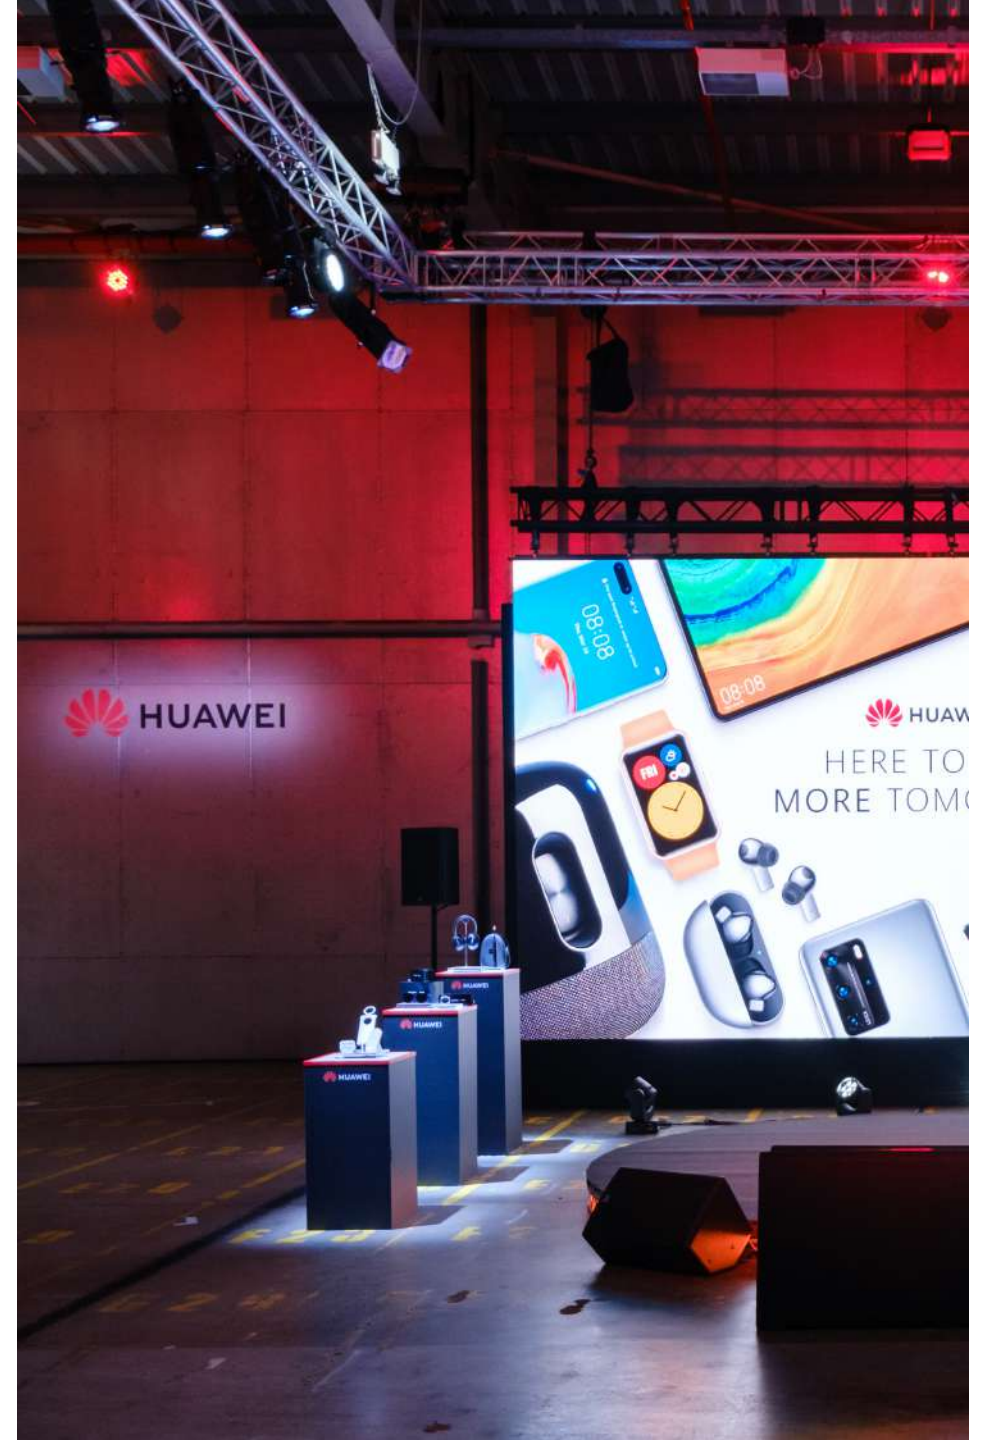

VIRTUAL BRAND & PRODUCT LAUNCHES

We have new creative ways to help adapt your brand and product launch. Designed to capture attention, we use digital platforms that incorporate an interactive approach.

Although people may not be able to safely connect in person, we are opening up new channels for people to come together via the Internet.

WHAT WE CAN PROVIDE:

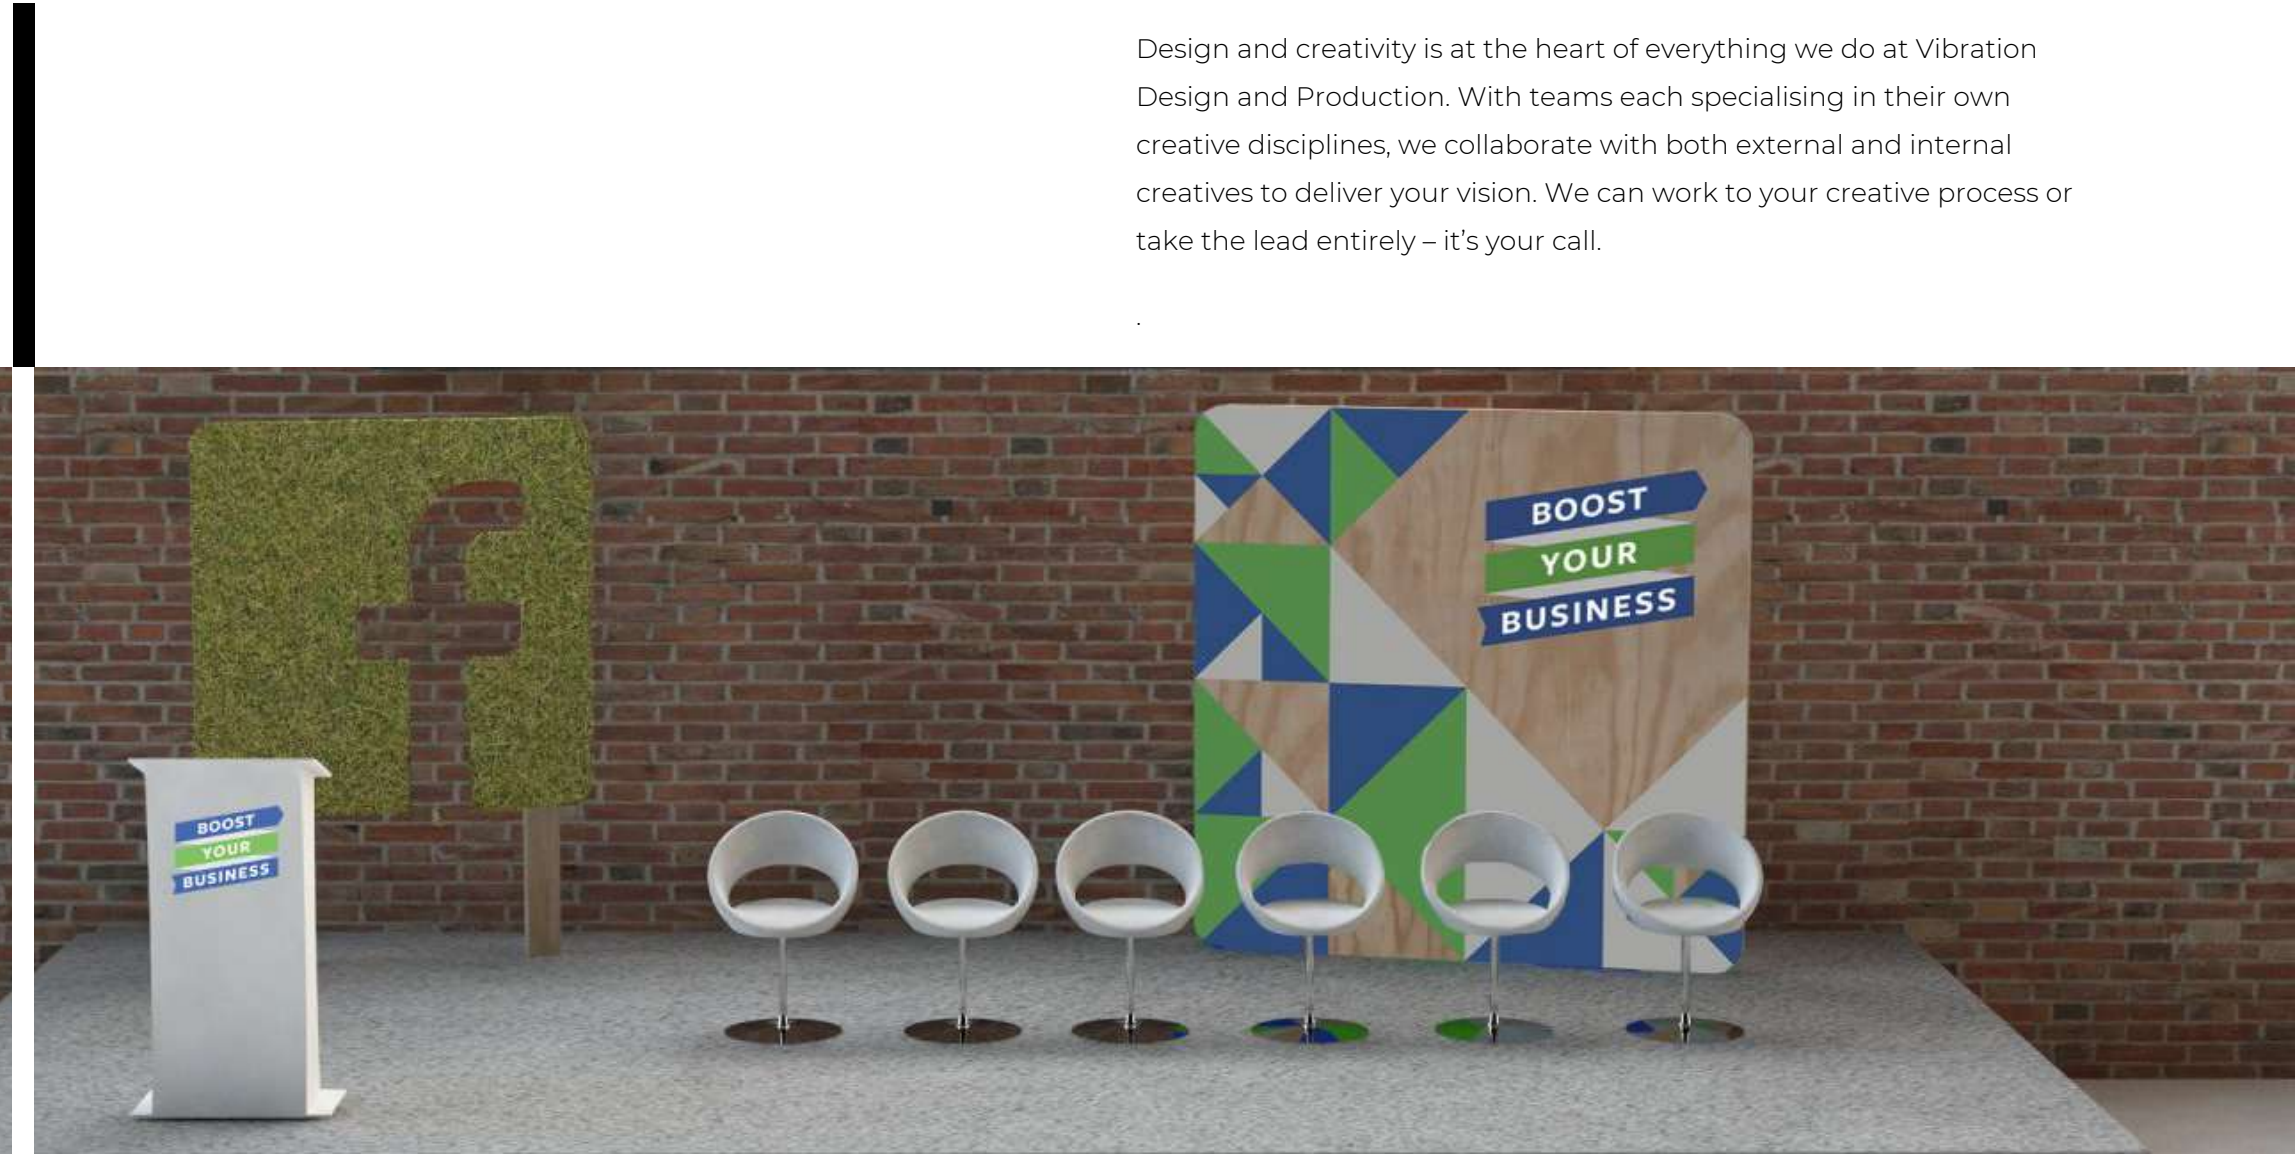

- Concept creation, development & visualisation
- 3D immersive & explorable environments
- AR Solutions
- Gamification
- Virtual Pop-Up Stores
- Virtual Fashion Shows
- Virtual Exhibitions & Festivals
- Virtual Showrooms

CONCEPT CREATION, DEVELOPMENT AND VISUALISATION

© VIBRATION

Design and creativity is at the heart of everything we do at Vibration Design and Production. With teams each specialising in their own creative disciplines, we collaborate with both external and internal creatives to deliver your vision. We can work to your creative process or take the lead entirely – it's your call.

3D Environments:

Bring brands and products to life through creating unique 3D immersive environments and engaging content in real time.

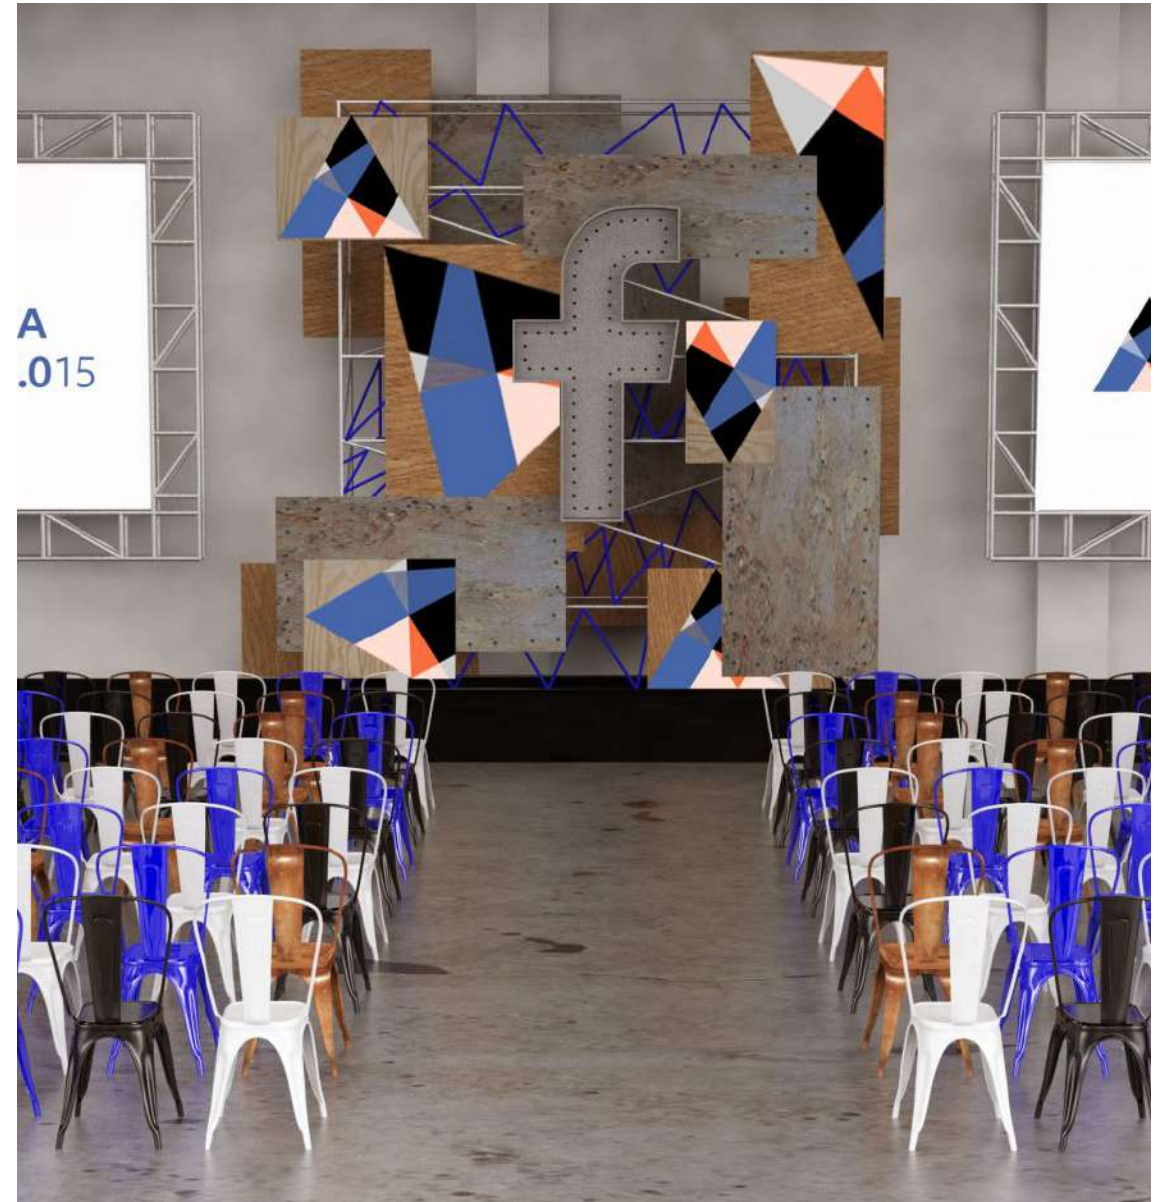

AR:

We can provide Industry-leading AR solutions designed to transport products and experiences out of the browser and directly into guests front room.

Gamification :

Gamification is a fun and unique way to improve networking opportunities, sponsor engagement, session attendance, and ultimately the overall virtual event experience.

DIGITAL SOLUTIONS

VIRTUAL EXHIBITIONS & FESTIVALS

Give brands and designers the chance to reach new audiences via digital booths. Schedule online talks, interviews, movies, collaborations, product launches and more.

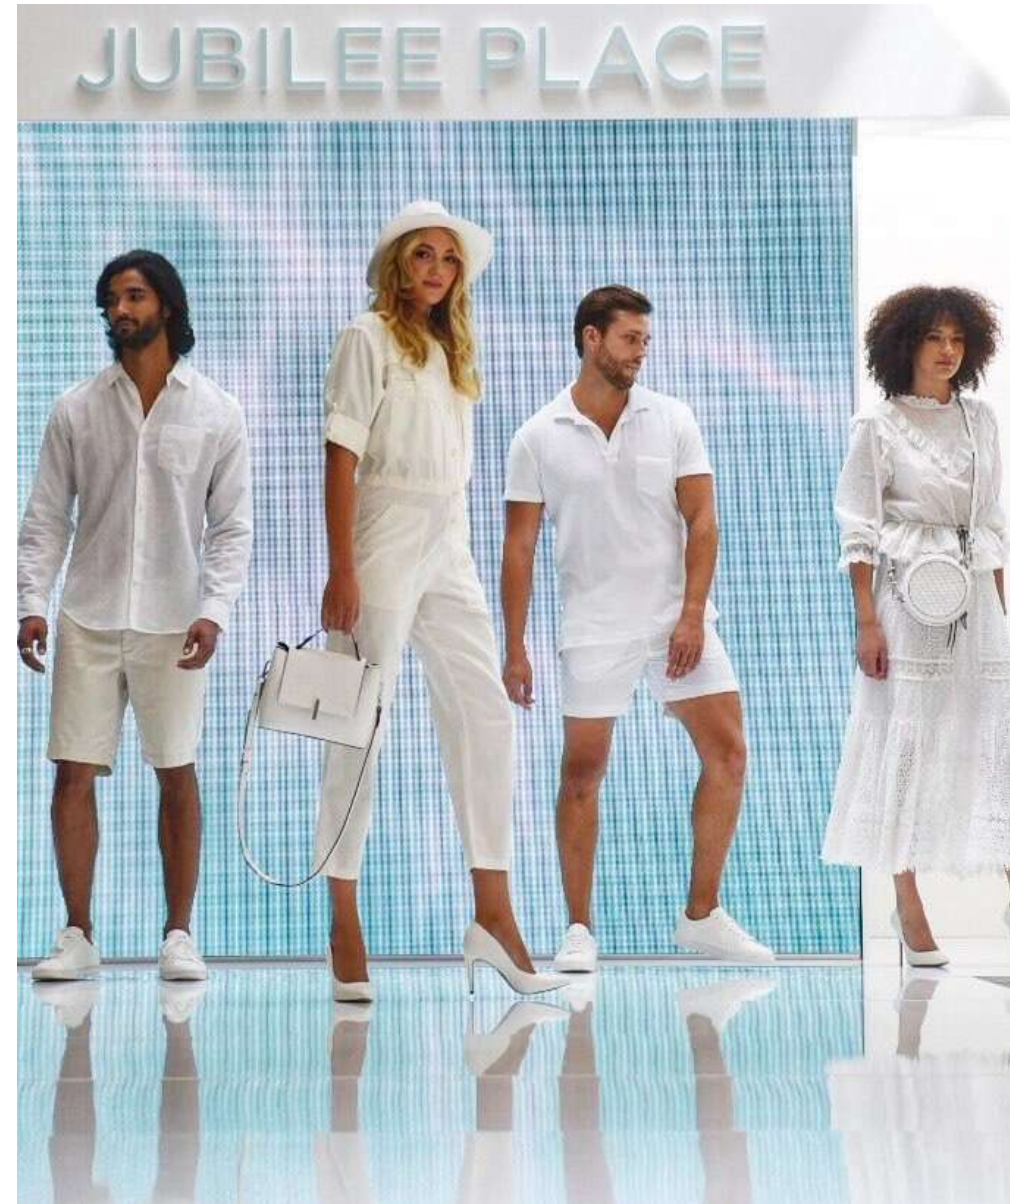

VIRTUAL POP-UP STORES

Keep customers connected with a virtual pop-up to bridge the gap between a physical store and online shopping. This concept is built upon an ecommerce template to not only showcase products but help skyrocket sales!

VIRTUAL FASHION SHOWS

This alternative to live fashion shows is the new way to present the upcoming season. Using our in-house studio based in the City, this concept can be either live or pre-recorded and has an average turnaround of five working days from shoot to delivery, perfect for the fast-moving fashion sector.

VIRTUAL SHOWROOMS

A custom built and branded 360° virtual showroom can be a perfect way for art galleries, car sales and trade events across all industries to connect with customers around the globe. There is the ability to host live sales appointments with agents and distributors to help manage customer relationships.

VIRTUAL PRESS DAYS

Give media outlets, influencers and buyers the opportunity to browse a bespoke showroom 24/7 and discover your new brand or product. A virtual Press Day enables you to take your product to the masses with the option to hold live face to face appointments.

Stand out entertainment breaking through the screen into your home office. From DJs and bands to some of the most jaw-dropping magicians you will ever experience, we have the knowledge and expertise to keep your guests captivated.

INTERACTIVE ENTERTAINMENT

WORKSHOPS

With mindfulness and wellbeing now at the forefronts of many minds these workshops help to engage with each other and produce something to be enjoyed forever. From terrarium curation to cocktail masterclasses to life drawing classes there is something for everyone.

To add some star quality to your virtual event we can supply a comedian to suit any price range carefully selecting them to match your individual requirements. For something more informative we have a range of inspirational speakers across the globe to deliver a motivational message on brand and on budget.

COMEDIANS & INSPIRATIONAL SPEAKERS

FOOD & DRINK OPTIONS

Guest can become their own chefs or simply open and enjoy with our creative food offerings.

VIBRATION DESIGN AND PRODUCTION

THANK YOU.
